Cool game but quite short, would love to see some new levels.. Really nice puzzle game. I'll be honest. The second I saw the fact you play a cowboy, a wizard, and a skeleton at the same time, I was sold. I'm only a few levels in, but so far the gameplay feels nice and solid, and characters feel varied without actually changing too much of their moveset. The cowboy, who you start as, has wall climb and a nifty -if kind of tricky to time- dash jump. The wizard, who you add to the party second, has a double jump. I also find his attack my go to if I can. The Skeleton, who comes last, has a hover, though it does not last forever and it's more like a slowed down fall. And just with those, the level design works perfectly to give each of these characters completely different ways to cover terrain.. This game is so funny!. This is just a fantastic game. I do recommend a gamepad. Spotted Shark Studio has done a fantastic job at making a platformer puzzle game. If you dont trust me try the demo.

Dante can now dash-jump off of ropes, ladders, and other climbable terrain. New achievements Participation Badge and Wall Meat. Reduce the difficulty of a jump in level 6, Deathpeak Peril Enemies now spawn much less frequently, taking 30 seconds longer to respawn than before. A robot now spawns facing a different way in level 7, making puzzle easier. Fix multiple visual and collision issues. Fix a bug where some sound effects could play more than once at the same time. Fix a bug where a character will display the wrong key graphic before using it. Fix a bug where you can drop dynamite at start of level on level 4.
